

(Part design)

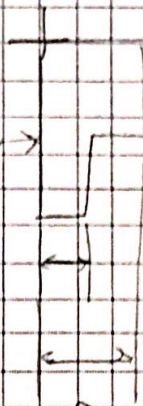

• missing tool bar \Rightarrow view/tools/defaults/customize/toolsbars/restore all constraints/restore position

draw new sketch

\Rightarrow click on plane for 2D

"snap the grid off"

tools/options/ - sketching/twoD and on (constraints)

green

constraints \star purple: over constrained

exit sketch to clicking on sketch, it's sketch

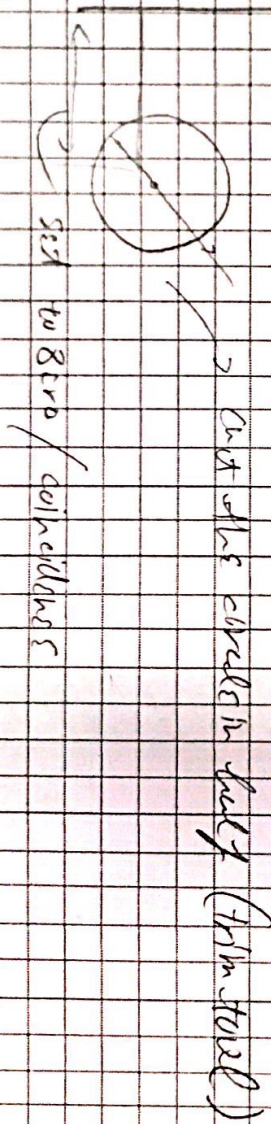

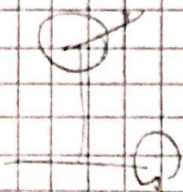

notes \rightarrow located, sized

draw new \rightarrow grab pad -> extrusion \rightarrow make new 3D

profile roller box \rightarrow axis (infinite)

Schaeff

force

cut where coincide in half (thin steel)

restore \rightarrow double click

or parameter

if you say

\Rightarrow equation calculation

make it $= () \times ()$

$= () / ()$

$= () \pm ()$
